

## Week 2 Quiz

latest submission grade 100%

1.	How do you use Image Augmentation in TensorFLow  You have to write a plugin to extend tf.layers  With the keras.augment API  Using parameters to the ImageDataGenerator  With the tf.augment API	1 / 1 point
	✓ Correct	
2.	If my training data only has people facing left, but I want to classify people facing right, how would I avoid overfitting?  Use the 'flip_vertical' parameter around the Y axis  Use the 'horizontal_flip' parameter  Use the 'flip' parameter  Use the 'flip' parameter and set 'horizontal'	1 / 1 point
	✓ Correct	
3.	When training with augmentation, you noticed that the training is a little slower. Why?  Because there is more data to train on  Because the training is making more mistakes  Because the image processing takes cycles  Because the augmented data is bigger	1 / 1 point
	✓ Correct	
4.	What does the fill_mode parameter do?	1/1 point
	There is no fill_mode parameter  It creates random noise in the image	
	A TE OF CARCO FAIRMONT HOUSE IN THE HINGE	

	It attempts to recreate lost information after a transformation like a shear	
	It masks the background of an image	
	✓ Correct	
5.	When using Image Augmentation with the ImageDataGenerator, what happens to your raw image data on-disk.	1/1 point
	It gets overwritten, so be sure to make a backup	
	A copy is made and the augmentation is done on the copy	
	Nothing, all augmentation is done in-memory	
	O It gets deleted	
	✓ Correct	
6.	How does Image Augmentation help solve overfitting?	1/1 point
	It slows down the training process	
	It manipulates the training set to generate more scenarios for features in the images	
	It manipulates the validation set to generate more scenarios for features in the images	
	It automatically fits features to images by finding them through image processing techniques	
	✓ Correct	
7.	When using Image Augmentation my training gets	1/1 point
	Slower	
	○ Faster	
	Stays the Same	
	Much Faster	
	✓ Correct	
8.	Using Image Augmentation effectively simulates having a larger data set for training.	1/1 point
	○ False	
	True	
	✓ Correct
